

## HOW TO GUIDE – BANNED ITEMS & PRACTICES

**What:** To outline the Banned Items and Practices from Operations and sites.

**When:** Operations on Oil and Gas Sites.

**Why:** An integrated Industry ban on identified risks which pose unacceptable risk to users and operations

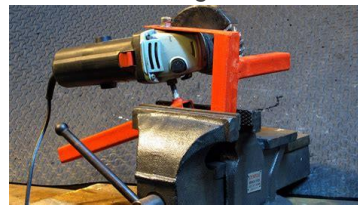

**Who:** All Personnel working on Australian Onshore Oil and Gas Sites.

**How:** Ensure the following items are not taken to site or if found at site, reported and removed as soon as practicable. Banned practices should not be carried out.

9" Angle Grinder

Home-made & Non-engineered Tools

Minsup clips, R-clips, Diaper Pins & any other type of safety pins that can fail to open

Octopus Straps

Single-Action Load Binders

For Lifting Operations, all shackles must be certified 4-piece shackles.

Non-Auto Retracting Blades

3-piece allowable for all other activities.

Banned Practice #1: (WIS) During E-Line operations, do not use the UHF inside the Wireline Unit whilst winch is moving / operating.
