**Certificate of Calibration**  
**Certificate Number : 105**

Model : 110 N.m  
Maximum Capacity : 110.00 N.m

Serial No : 17020459  
Inspector : M Arnold

Date of Calibration : 25/05/2020

As Found

Set Torque	Min	Max	Actual Readings				
20.00	19.20	20.80	19.70	20.13	20.76	20.36	20.25
60.00	57.60	62.40	58.66	58.46	58.30	57.89	57.68
110.00	105.60	114.40	109.90	107.25	106.68	106.80	105.88

Out of tolerance readings are marked with an asterisk (\*)

Calibration carried out by : RIE Group

Quality Manager : Jason Carter

MEASUREMENT SYSTEM USED

Measurement Device Model : Norbar TWC - T-Box XL

Measurement Device Serial No : 138267-A

Measurement Device Certificate : 239578

Transducer Model : 50675.LOG

Transducer Serial No : 90803

Transducer Certificate : 20686A

The measurement system used for this calibration complies with the accuracy requirements of ISO6789

The measurement uncertainty interval of the measurement system is 0.323%

The uncertainties are for a confidence probability of not less than 95%.
