ENSURE YOU HAVE ARRANGED A JOURNEY MANAGER

Ensure that the vehicle lights are on, the gears are engaged in high range 4x4, UHF radio is turned on (Channel 40) and you monitor at all times.

Speed limits is 80kph for light vehicles. Follow any temporary speed limit signs (usually at roadwork's or where road watering is occurring).

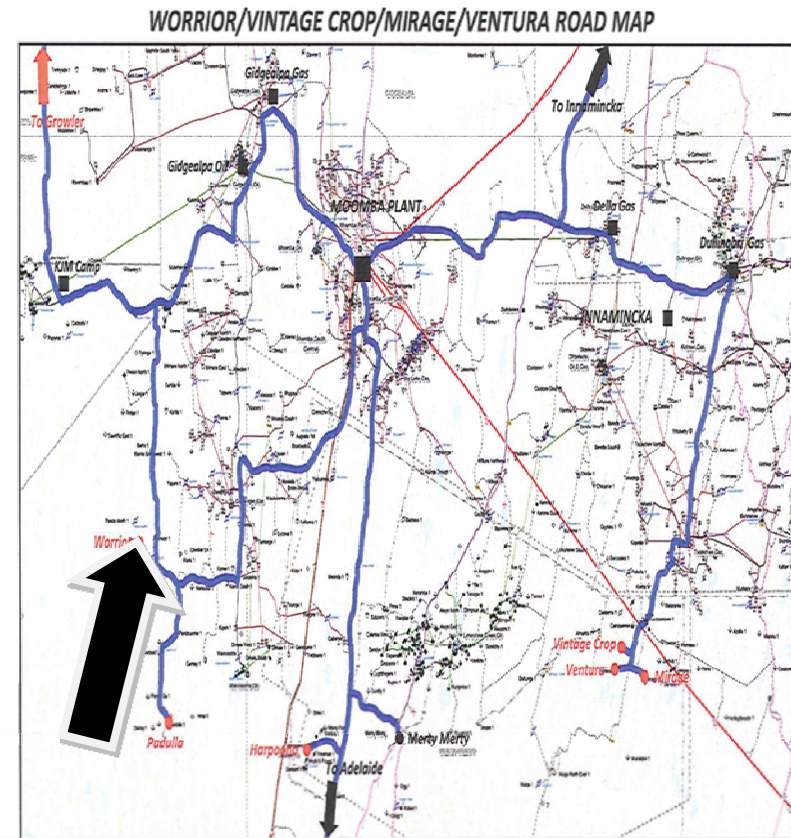

Ensure that you drive to the road conditions as they may change after adverse weather or from heavy vehicle movements. If you see a star picket on the side of the road with a flag or danger tape on it, there may be some damage to road surface or a soft shoulder, proceed cautiously. If the road is being watered try to drive on the dry surface BUT ENSURE YOU KEEP LEFT APPROACHING CRESTS AND BENDS.

Road trains regularly use this route. Ensure you keep to your left when approaching crests and bends.

If you need to pass a heavy vehicle or roadwork vehicle, ESTABLISH RADIO COMMUNICATION WITH THE DRIVER/OPERATOR PRIOR TO PASSING.

ON THESE ROADS YOU MUST BE AWARE OF WILDLIFE. This may include dingo's, emu's, camels, rodents, rabbits/hares, snakes and lizards.

IF YOU COME TO ROADWORKS. ESTABLISH RADIO COMMUNICATION WITH ROAD WORKERS AND GET APPROVAL TO PROCEED. (Some Roadwork teams use channel 12)
