Personnel Training and Competency Requirement

HURACAN

Employee	Employee Supervisor	Operation Manager	Date

Comments

This document contains information regarding certification and training requirements for field based roles. When a new employee has completed the Huracan induction, this document is to be used to ensure the New Employee, their Direct Supervisor and the Operation Manager understand Training and Competency Requirements.

Document to be completed and kept by the New Employee for reference until all certification requirements have been completed.

Some courses require to be booked by the administrator, once this document is complete and you have an email address, the administrator will confirm training course bookings.
